iatricSystems Spring Exchange Full Agenda

Choose to register for one, two or all three tracks, below:

Tuesday, April 27th

Privacy Track

Promote Patient Privacy with AI and Prevent Cyberattacks

11:00 AM ET

Opening Remarks and Keynote Address: "The Game-Winning 3"

Rob Rhodes, Executive Vice President, iatricSystems, Inc. welcomes you to the iatricSystems Spring Exchange. In this exciting keynote, Dave Devlin explores how leadership is not just about becoming your best ... but also making everyone around you better.

12:00 PM ET

Meet AVA - Your Advanced Virtual Assistant

What would your workload look like if you had an advanced virtual assistant to help you streamline patient privacy monitoring? Find out by joining Steve Walker as he dives into the latest innovation in patient privacy – AVA. You'll learn how AVA brings value to your privacy team by spotting suspicious activity and automatically collects actionable information for your team to investigate.

12:30 PM ET

Entertainment Break #1: Day 1

12:45 PM ET

Patient Privacy: New Challenges and Modern Solutions

There's no question, patient privacy has evolved over the past year, and preventing breaches has become more challenging. Join in on the conversation between product expert Rich Murphy and a guest hospital as they discuss their unique challenges and the solutions they've implemented to enhanced patient privacy.

Report Writing Track

Streamline Report Development & Eliminate Data Quality Issues for Clinicians

11:00 AM ET

Opening Remarks and Keynote Address: "The Game-Winning 3"

Shanna DeLeo, Vice President of Professional Services, iatricSystems, Inc. welcomes you to the iatricSystems Spring Exchange. In this exciting keynote, Dave Devlin explores how leadership is not just about becoming your best ... but also making everyone around you better.

11:45 AM ET

Entertainment Break #1: Day 3

12:00 PM ET

Exploring a Data Quality Framework

Join us to walk through a SQL-based process to monitor your applications (Meditech, Epic, Lawson, etc.) for data quality issues on an automatic basis. We'll review how the process works, how quality reports are delivered to your business line managers, how to use the dashboards for root cause analysis and trending in support of process improvement.

12:45 PM ET

Entertainment Break #2: Day 3

1:00 PM ET

Optimizing the Reporting Portal

Is your reporting portal a mess? Do you have multiple versions of the same report? Can't find all of your scheduled reports? Join us to review how to reconfigure (or set up for the first time!) your SSRS-based reporting portal and make it easy to maintain, more flexible, ready for mobile users and faster to update.

2:00 PM ET

Feeding Clinical Data Using Report Writing Services

Join Phil Sherry and David McVeigh to learn more about how you can feed your data through powerful report writing tools.
